

# ELLIE ELEPHANT

Adult elephants need to drink 210 litres of water a day.

Elephants are the largest land-living mammal in the world.

Elephants can live for over 70 years.

Elephants use their trunk to breathe like a snorkel in deep water.

Adult elephants weigh between 5,000 and 14,000 pounds.

Elephants are herbivores and can spend up to 16 hours a day collecting leaves, twigs and roots.

Elephants sleep about 2 hours a day.

An elephant's trunk can grow up to 2 metres in length and weigh up to 140kg.

There are two types of elephant, the African and the Asian elephant.
