

# FUNKY MONKEY

There are currently over 260 species of monkey in the world.

Monkeys groom each other as a sign of love.

Monkeys sleep for an average of 13 hours a day.

The length of a monkey can range from 14cm - 16cm including the tail.

Monkeys have feelings like humans.

Groups of monkeys are known as a 'tribe' or 'troop'.

Monkeys can grip with both their hands and their toes.

Monkeys live in the jungle (mostly in tropical rain forests).

Monkeys love to eat fruit, like bananas.
